EDUCATION

Kyung Hee University

2025.03 ~

Major of XR-AI Convergence

Sungkyul University

2017.03 ~ 2025.02

Computer Engineering

RESEARCH & WORK EXPERIENCES

Apple Developer Academy @ POSTECH 2th

2023.03 ~ 2023.12

- Studied Apple ecosystem development through CBL (Challenge-based learning) and developed an interest in nurturing developers

Social Service Personnel

Seoul Metro, 2018.08 ~ 2020.06

- learned that many people are unable to benefit from smartphones, and this has become an opportunity for me to set a goal to utilize my expertise to address this issue.

RESEARCH INTERESTS

- AR/VR and Mixed Reality
- Haptic Feedback
- HAR with one device
- Real-World Application of New Technologies

VOLUNTEERING

CJ OliveNetworks SW Creative Camp University Volunteer CJ UNIT 6th

2022.03 ~ 2022.06

- Training future developers among elementary and middle school students through coding and app development

Microsoft Be a coding Hero 6th

2018.05 ~ 2018.07

- conduct education for underprivileged groups and witness students whose dreams of becoming developers are nurtured through education

Google Arts & Culture Pop-up Lab

2017.07 ~ 2017.08

- Engaging in activities that allow experiencing world-renowned paintings and artifacts using cutting-edge technologies such as AR/VR.

Microsoft Be a coding Hero 4th

2017.07 ~ 2017.09

- Conducting education to ensure that the benefits of information education are not biased, and fostering students' interest in coding.

PROJECT

Dalttajo

2024.06 ~

- Implemented interaction between virtual objects using RealityKit and LiDAR for hand recognition
- developed feedback using Haptic Engine, planned to add VisionPro device compatibility.
- Haptic Engine feedback engineering

일상

2024.05 ~

- implemented and optimized features using UIKit and RxSwift
- involved in UI/UX design and implementation.

VisionOS XR

2023.11

- Developed components using Reality Composer Pro based on VisionOS
- studied interaction methods between hands and components in virtual space
- studied functionality according to space

Meok-Q

2023.07 ~ 2024.05

- practical experience studying and using technologies such as AWS, Alamofire and Concurrency.

RealityKit, LiDAR

2023.06

- Conducted a simple project using RealityKit, SceneKit, and LiDAR
- developed interactions with users by displaying numbers in virtual space.

PostKit

2023.09 ~

- Experience in releasing an app on the App Store, acquiring actual users, and maintaining it

Dots

2023.06 ~ 2023.08

- Gained experience uploading an app to the store for the first time and gained confidence in designing all views.

DiscoverMe

2023.04 ~ 2023.05

- Elevated understanding of SwiftUI and acquired the ability to analyze and observe user behavior

Who? Yak

2021.06 ~ 2022.11

- Aiming to create an app that can be helpful in real life, the addition of features tailored for the visually impaired received great response

How heavy are the dumbbells you lift?

2021.03 ~ 2021.12

- Started with the goal of creating an app that can run on smartphones, and successfully implemented all required features

Health Keeper

2020.07 ~ 2020.12

- Started to familiarize myself with UI design and development methods, gaining clarity on areas where improvement is needed to achieve the goal

AWARDS AND HONORS

IEEE World Haptics Conference 2025 Student Innovation Challenge Finalist

2025.07

- Haptic Latch: Enhancing Passenger Safety with Tactile Feedback in Vehicle Door Systems

In-school competition (JAVA) winner

2020.10

- project 'Health Keeper' received high praise for server construction, usability, and usefulness

SKILLS AND TECHNIQUES

IOS DEVELOPMENT (SWIFTUI, UIKIT)

ANDROID DEVELOPMENT (JAVA, KOTLIN)

HIG
